OUR PHILOSOPHY

# Health from **Inside**

We believe true health comes from within. Rather than chasing symptoms, our products are built to strengthen the horse from the inside out – addressing the root cause and guiding your horse toward better health.

Our range is tailored around three focus areas: Hoof, Skin, Gut and Enrichment – now joined by a focus on Barefoot Support. A daily dose of immune support lays the foundation for a robust defense against potential health issues.

TOTAL SUPPORT

Size 10kg

Developed in consultation with a veterinarian. By strengthening the inside, we address the symptoms – from mud fever and colic to recurring hoof abscesses.

# Our Focus Areas

True health comes from within. Every Equique product supports one of five connected focus areas – working together to keep your horse sound, comfortable and thriving.

## 01 Hoof

Strong, healthy hooves are the foundation of a sound horse – from everyday care to targeted support for thrush and weak frogs, plus our Swedish-made barefoot system.

---

## 02 Skin

The skin is the horse's first line of defence. Our range soothes, protects and supports natural healing with gentle, naturally caring ingredients.

---

## 03 Gut

Balance gut flora, bind harmful toxins, improve nutrient absorption and strengthen the immune system – for a healthy, resilient horse from the inside out.

---

## 04 Enrichment

A busy mind is a healthy mind. Our enrichment range turns feeding and play into natural foraging and mental exercise, supporting wellbeing in the stable.

---

## 05 Objective Gait Analysis

Work proactively with your horse's health. AI-based gait analysis with Sleip documents movement over time and catches small asymmetries early.

# Hoof Care

Strong, healthy hooves are the foundation of a sound horse. From everyday care to targeted support for thrush, weak frogs and sensitive soles.

**NEW** Hoof Guard

SIZE 750G

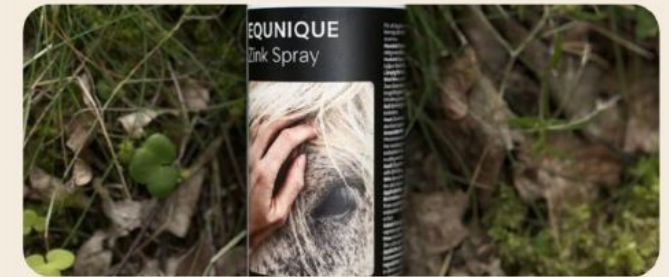

Swedish-made super-premium hoof clay on a unique zeolite base, enriched with natural ingredients. Shea butter forms a water-repellent layer that nurtures and protects.

Hoof Tar Spray

SIZE 250ML

For daily hoof care. The power of beech tar protects against moisture and bacteria, supporting a strong, healthy hoof and frog.

Zinc Spray for Hoof & Skin

SIZE 200ML

The all-rounder every stable cabinet needs. Care for a healthy hoof or support the skin's healing process – with zinc oxide, lanolin and allantoin.

Zinc Paste

SIZE 60ML

Hoof and frog paste based on zinc oxide, copper & zinc chelate, organic acids and tea tree oil. Adheres strongly and is easy to apply exactly where needed.

**NEW** HoofBoost Mineral+

MINERAL SUPPLEMENT 9 KG

A balanced, carefully formulated Swedish-made mineral supplement developed for Nordic conditions – a hoof- and skin-strengthening base that suits most horses.

**NEW** pH Minus

PH-BALANCING SPRAY

A natural, lactic-acid-based spray that lowers pH to ~4.8–5.0, creating an acidic environment that supports the hoof's and skin's natural barrier.

NEW FOR 2026

# The Barefoot Support

A Swedish-made system developed with leading farriers – glue-on pads, wedges, sole protection and the tools to apply them, for healthy barefoot performance.

**NEW** SoftStep Wedge Pad

2 PCS · 6° WEDGE

Our new soft 6-degree wedge pad, made in Sweden with leading farriers. Ideal for horses with underrun or low heels that need extra comfort and support.

**NEW** Sole Protect

YEAR-ROUND SOLE GUARD

An innovative, lightweight, biodegradable material with a density close to natural hoof keratin – giving year-round sole protection.

**NEW** Glue On Barefoot Pad

2 PCS

Our first Swedish-made glue-on barefoot pad, designed to increase the barefoot horse's comfort and protection.

**NEW** 2K Urethane Glue

BLACK · 50ML

High-performance two-component urethane glue developed to securely and effectively bond Glue On Barefoot Pads to the hoof.

**NEW** Glue Gun

FOR 50ML CARTRIDGES

Compact, ergonomic glue gun designed for Equinique's 50ml two-component glue cartridges, such as the Superfast 60 sec 2K Urethane Glue.

**Raw Wool Pads**

FINNISH SHEEP'S WOOL

Harness nature's ancient wisdom with pads of pure, unprocessed Finnish sheep's wool – a naturally healing solution between hoof and pad.

# Skin Care

The skin is the horse's first line of defence. Our skin range soothes, protects and supports natural healing with gentle, naturally caring ingredients.

## Wound Ointment

SIZE 150ML

A versatile, effective salve crafted to promote healing and soothe skin irritations, combining naturally caring ingredients.

## Mud Fever Ointment

SIZE 250ML

Cares for sensitive skin and mud fever on the horse's legs. Supports, protects and rehydrates dry skin while soothing inflammation.

## Wound Powder

DRYING POWDER

Quickly dries up skin damage – superficial wounds, scrapes, mud fever and eczema. Soothes itching and repels flies. Safe for horses, dogs and humans.

## Double-Action Propolis Shampoo Bar

SIZE 60G

Deep-cleansing, caring propolis & honey shampoo bar for extra-sensitive skin. pH-neutral, biodegradable, vegan and free from SLS and parabens.

## Raw Wool Pads

FINNISH SHEEP'S WOOL

Pure, unprocessed Finnish sheep's wool – naturally healing and soothing for sensitive skin.

Also great for skin  
Zinc Spray & pH Minus – found in Hoof Care  
– both work beautifully on skin too.

# Enrichment

A busy mind is a healthy mind. Our enrichment range transforms feeding and play into natural foraging and engaging mental stimulation, meeting your horse's ethological needs and supporting wellbeing.

## Hay Slowfeeder Carrot

SLOW FEEDER

Enrich your horse's day with mental exercise. Fill the carrot with hay and add treats like vegetables or herbs.

## Jolly Hay Ball

TREATBALL

A soft, robust and durable treat ball of flexible rubber. Fill with hay and tuck treats like apple into the smaller openings.

## Feed & Treat Cube

ACTIVITY CUBE

An exciting challenge that stimulates your horse's curiosity and intelligence. Fill with Treats Support or the daily ration.

## Smart Flow Hay Net

HAY NET

Designed by team Equique with a special shape that makes refilling hay easier – for a healthy, engaging feeding experience.

## Horse Toys

SUEDE·VARIOUS SHAPES

Explore our diverse collection of horse toys, artfully designed in appealing shapes from durable suede material.

## Treats Support

2KG · 10KG

Healthy treats with the power of Clinoptilolite. Specially crafted with love and care – a tasty snack that's also a healthy reward.

## Enrichment Mat

FORAGING ENRICHMENT

Natural foraging in the stable. Helps meet the horse's ethological needs in a modern environment, supporting mental wellbeing.

## Bag Hay Hay

HAY & TACKBAG

The perfect way to pack and transport your horse's hay and essentials – convenience and style in one.

EXPANDING THE FAMILY

# More from Equinique

Beyond the horse – natural support for dogs, Objective Gait Analysis to work proactively with health, and subscriptions that save you time and money.

FOR DOGS

NEW

## Total Support – Dog

NATURAL IMMUNE SUPPORT

Give your four-legged friend the best start to the day with our natural immune support – an exclusive product designed to improve your dog's health and wellbeing, built on the same Total Support philosophy.

SLEIP × EQ

SERVICE

## Objective Gait Analysis

POWERED BY SLEIP AI

Work proactively with your horse's health. Document and analyse movement over time with AI-based video analysis in Sleip, catching small asymmetries early – available as a single analysis or by subscription.

## Subscriptions – save time & money NEW

### HoofBoost Mineral+

9 kg delivered to your door every four months.

### Total Support

10 kg delivered automatically every three months.

### Objective Gait Analysis

Recurring objective analyses to follow your horse over time.

# Enrichment Mat

In the wild a horse spends 16–18 hours a day foraging. The Equinique Enrichment Mat brings that natural searching behaviour back into the stable — turning a static box into an interactive space that supports mental wellbeing and lowers stress. Hidden food in its 4 cm-deep clover structure makes the horse use its muzzle and sense of smell, lengthening chewing time and calming the mind.

## 01 Longer chewing time — natural protection against ulcers

Searching for small particles increases chewing and saliva production, the horse's natural buffer against stomach acid, for a healthier digestive rhythm.

## 02 A mental lifeline during box rest

Effective environmental enrichment that reduces stress and counters stereotypic behaviours when movement has to be limited.

## 03 Calming focus in demanding moments

A positive occupation that helps keep the horse harmonious during hoof care, veterinary visits or transport — focusing on the mat lowers cortisol levels.

### MATERIAL

**Food-grade silicone**

Soft, durable & dishwasher safe

### SIZE

**50 × 50 cm**

4 cm deep

### WEIGHT

**1 kg**

Sits steady & flat

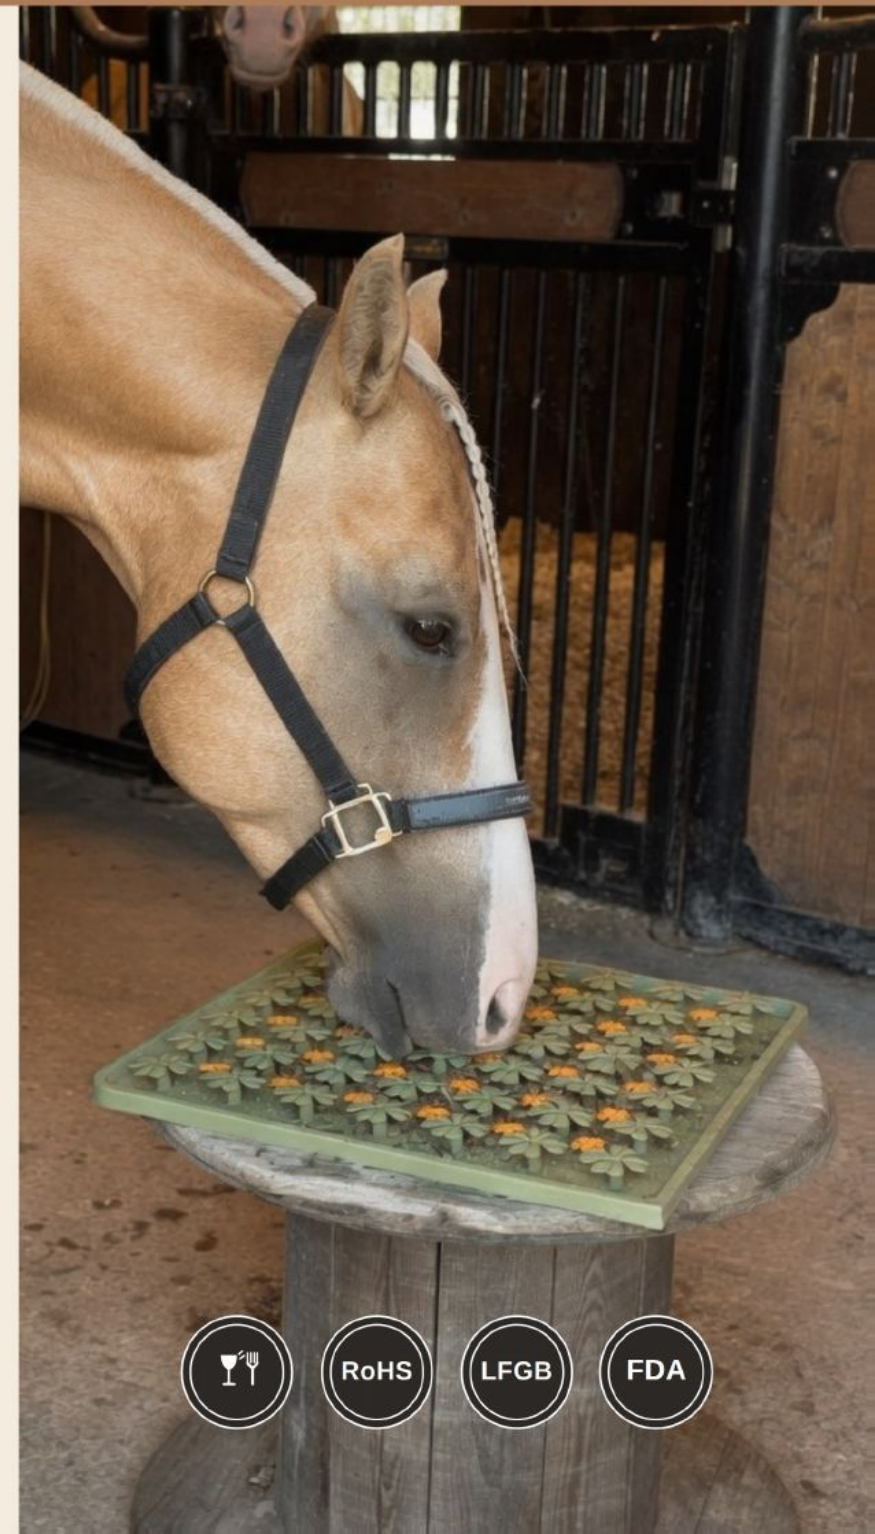

### SUITABLE FOR

**All horses**

Foals & ponies too

Made from soft, durable, food-grade silicone (FDA/LFGB compliant; RoHS tested). Dishwasher safe.

Art. no **493002**

HOOF CARE · PH-BALANCING SPRAY

# pH Minus

**A natural, lactic-acid spray for a healthy hoof and skin environment.**

By lowering the pH to around 4.8–5.0 with natural lactic acid, pH Minus creates a mildly acidic environment that supports the hoof's and skin's own protective barrier. Made for daily care — under the hoof, in the frog and central sulcus, and on the lower legs — it is especially valued in wet and muddy conditions. Simply spray, let it dry, done.

## 01 Natural, gentle formula

Built around natural lactic acid, without unnecessary chemicals — working with the horse's own biology rather than against it.

## 02 Supports the natural barrier

The acidic environment strengthens the hoof's and skin's own protective mechanisms — helpful around mud fever and scratches on the lower legs.

## 03 Made for horses living out year-round

An everyday spray for wet, muddy seasons — Swedish-made by the family business Equique®.

LOWERS PH TO

**4.8 – 5.0**

Lactic-acid based

USE ON

**Hoof, frog & legs**

Sole and sulcus too

SIZE

**500 ml**

Spray bottle

**How to use:** Shake the bottle and spray the chosen areas 1–2 times a day, year-round, as part of your regular hoof- and skin-care routine.

BEHIND THE BRAND

## Our True Mission

Horses have been at the heart of Equnique from the very beginning. As young as eight, I found myself drawn to the stables here in Sweden – willingly taking on any task, just to be near these incredible animals. By sixteen, I welcomed my first horse into my life. Now in 2026 we are a team of enthusiasts doing what we love.

Our passion for horses extends into every aspect of our work. This is not a hobby – it is a lifestyle. Our mission was born from a lifetime of experience, founded on the principles of Love, Care & Protect across Hoof, Skin, immune system and Enrichment. Our true mission is ensuring the welfare of horses.

*Jennie Hultman Moliner*
